### Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,  
Bright Seraphs, Cherubim and Thrones,  
Sing their praises!  
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)  
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along

with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

### Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

#### East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

#### North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

### West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

### South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

### Your Most Powerful Angelic Connections

#### *Neptune*

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

#### *Neptune is in Cancer*

With Neptune in Cancer, you are part of an entire generation of people who share in the influence of the Angel Muriel.

From the Greek for Myrrh, Muriel is one of the rulers of the order of dominions. Myrrh is a resin obtained from certain trees, and was among the gifts the Wise Men brought to the baby Jesus. It was a precious tree resin, and the gift was both to honor the babe, and to foretell his death, when the myrrh would be used as a funeral ointment.

Although sources differ, the power of this Angel is often associated with the orange healing energy of the navel chakra, and with the ruby gem.

Invoked from the south, Muriel Angel is said to be able to procure a magic carpet. When you hit an emotional low, this Angel can be called upon to raise up your emotions, and to redirect your thoughts toward more positive outlets. As if on a magic carpet, your thoughts travel to near or distant locations and your soul is uplifted to discover joy.

#### Meditation for Muriel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions. You may want to cover your body with a blanket.

2. Lie on the floor or on a mat or folded blanket. You may want a folded towel or a small pillow for your head (not a thick one). Rest your hands at your sides and allow your feet to relax in a comfortable posture. Look at the ceiling.
3. Begin to laugh out loud. In fact, laugh loudly! And energetically. Use your diaphragm and chest muscles to push the laugh out, the way you do when you sing. Do this for one minute.
4. Then rest quietly for one minute without moving..
5. Repeat the laughing and resting process.
6. Rest on your back for a few minutes.

Don't try to skip the rest period at the end of this meditation. Laughing uses a lot of muscles and is actually quite a workout! This meditation will cheer you up and also circulate energy throughout your body. At the end you may feel a good deal warmer than when you began.

### *Neptune is in the 3rd Decanate of Cancer*

#### Argo - Research

Argos, the constellation of the third decanate of Cancer, recalls the Great Flood in numerous cultural traditions. When the flood of emotional response threatens to overtake you, the ship Argos is poised to carry you safely to land. Your Angels can help bring less conscious feelings into awareness. While emotion is a powerful force in your life, remember that you are also composed of intellect and intuition, and you are a container for all three. Your Angels help you blend these three facets of your personality into a joyous expression of your soul.

#### Affirmation

I work to facilitate the best in each person I meet.

### *Neptune is in the 7th House*

With Neptune in the Seventh House, your Angelic focus is on spiritual partnership. People often segregate relationships into romantic/sexual, business, and enemies. You will find that your Angels make no such definite distinctions. Angelic focus on platonic love does nothing to diminish the power or value of sexual or business relationships. However, as your Angels continue to support you in loving relationships, you begin to perceive strong themes that run through all of them.

Receptivity is one area in common. You judge friends, lovers, and enemies on their perceived receptivity to your ideas, and how you respond to theirs. Because relationships are such a powerful force in your life, Angelic presence has a big impact on how you feel about others.

You have high ideals where love is concerned. You imagine what a perfect partner can be, and then you seek such a person. No one is perfect, so no one can live up to your ideal. However, your Angels will steer you toward partners who share many of your beliefs and ideals. Angels make it possible for you to see the good in everyone.

A possible weakness is your tendency to develop an unconscious relationship with partners. This means that you allow a part of your less conscious mind to control interactions with your partner. You are not aware of the fact that unconscious feelings are surfacing in your relationships. Relating in this way can cause untold sorrow and problems because neither partner understands what the other truly wants, and neither knows why the relationship is sometimes so painful. Even when you face problems consciously, you may try to cover up actual feelings about partners or others.

Eventually you need to become aware of your repressed emotions and take action to communicate in a healthy manner. Passive communication needs to become assertive and loving communication. Fortunately your Angels support you when it is time to face the music with your partner.

You may be susceptible to the allure of glamorous people. Thus you are attracted to people who look good in some ways, but will never satisfy your deeper needs. For example, glamorous appearance may have nothing to do with the higher expression of compassion. Also some spiritual gurus have no substance. You need to trust your intuition and take wise counsel if you are truly confused about another person's substance. If a relationship is to last for many years, compassion is an essential ingredient that bridges the gap between you and your partner in times of difficulty.

You have the capacity to cultivate spiritual partnerships. In doing so, you manifest the best qualities in human nature. Your Angels offer clear guidance toward fulfilling relationships.

The artist Norman Rockwell had Neptune in the Seventh House.

### Angels in Your Daily Life

#### *The Ascendant*

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

#### *The Ascendant is in Sagittarius*

With the Ascendant in Sagittarius, you gain strength from the Angel Adnacheil who empowers with love. The quality that shines forth freely in your personality is enthusiasm. Except for isolated times in your life, you generally relish the possibility of expanding your intellectual horizons and covering a lot of territory in your travels.

You value knowledge, adventure, and truth above material wealth, yet you can create or accumulate beautiful things. You can usually make your money go farther than the average person, perhaps because you buy for quality and expect things to last.

You probably enjoy a variety of sports, either as a participant or spectator. Optimism and honesty combine to make you a welcome team member at work or at play.

Disappointments hit you very hard. While you are capable of changing your mind, you don't do so easily. Thus you need a long time to nurse wounds from faithless associates, and in the interim you may seem rather self-righteous.

You chide yourself severely if you ever promise more than you can deliver. In this you uphold your beliefs in that you don't expect something from other people that you cannot deliver yourself. Your Angels help you to be more generous with yourself, and with others.

#### Meditation on the Fire Element

In the Book of Daniel (3:28), we learn that the Angel of the Lord was in the furnace with Shadrach, Meshach, and Abed-nego when Nebuchadnezzar punished them after they refused to sacrifice to the pagan deity. After the Angel saved them, Nebuchadnezzar was visited with dreams and visions concerning the future.

The Angel of Fire also rules over hidden things. This Angel delivers information in the form of intuition. You can enter into the fire in your meditation to gain knowledge that can later be tested by asking questions and gathering factual information. To do this, place a candle on your altar or on a table in front of you so you can look at the flame without straining your eyes. The flickering flame provides physical movement and encourages mental, emotional, and spiritual movement to match. When all else is still, the movement of the flame allows for movement within your mind. In the gaps between ordinary thoughts, intuition arises.

### *The Midheaven*

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

### *The Midheaven is in Libra*

Libra Midheaven -- Suriel

With the Midheaven in Libra, you establish yourself in the world with the aid of the Angel Suriel who alleviates destructive desires. Being a logical person, you know that you have no good reason to act in an unpleasant manner. At the same time, you may not have any good reason for total sincerity either. After all, complete sincerity will surely lead to unpleasantness, at least part of the time. Thus you adopt a strategic balance between these two important qualities.

You have a similar mind set when it comes to cooperation and exploitation. You are willing to cooperate, at least when it suits your purpose. You are also willing to exploit the benefits that the Universe puts in your path. The resulting behavior incorporates as much cooperation as it takes to get what you want. When your method fails, you can become indecisive, impatient, and unwilling to support your team members. This is when you benefit from Angelic presence.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When you feel yourself coming into equilibrium, you know you are on the right track. You may find that Angels and Angelic images work themselves into your work in some way.

You are not comfortable in extreme conditions and you pull back from them, knowing that you can restore secure footing and continue on a more congenial path. You can use meditation to help you find and maintain your balance point.

Another key to Angelic presence is your ability to reach out to others without losing your own position. You find that as your Angels guide you, you respond easily and freely to a variety of situations. You draw on information from many sources to help solve problems, and you can integrate massive amounts of information very quickly. You learn to recognize your path for its qualities of equanimity and integrity. The combination of the Libra Midheaven and the Angelic energies of Suriel is indicative of a career in the arts, or in leadership positions like the military where coordination of material and personnel is essential to success.

### Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.
2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of equilibrium to fill your mind.
4. Develop a rich, vibrant feeling of what balance looks like, feels like, and sounds like. Consider all your senses as you

build awareness.

5. As you do this meditation, notice how your attitude toward equilibrium may shift or become even more defined.
6. Do this meditation for a few minutes.
7. When you are finished, write about your impressions for future reference.

### *The Midheaven is in the 2nd Decanate of Libra*

You love to hang out in the middle space between opposite extremes. When you are caught at one end or the other, your Angels help you accept your experience and develop compassion for yourself or others who share it.

### *Neptune is the Ruler of the 4th House*

As you cultivate your personal Angels, you discover that at your core you experience empathy. This means that you constantly respond to the core beliefs of the people around you, and you are able to tell them how you experience them. Empathy is one expression of your psychic and intuitive skills. Early in life you may have been awash in the psychic energies flowing from other people into your awareness. Now you learn how to regulate absorption or even block those energies.

You can, with the help of Angelic presences, use your core experience to transform yourself and your world. Your unique style of openness to the world allows you to learn about many different cultures and beliefs, and then meld the values from each of them into a coherent body of ideals that govern your interactions with everyone in your life.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to release old, useless beliefs. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you to leave old business behind. You may see through apparent reality to a subtler level of personal belief in this way.

### *The Sun*

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

### *The Sun is in Virgo*

With the Sun in Virgo, you gain strength from the Angel Hamaliel who incites virtue. Analysis is a core ability of your Sun sign. Analysis can express through hyper-critical, fault-finding means, or it can express as the ability to learn easily, the skill associated with research, and meticulous attention to detail. Bottom line, you tend to judge by results and not promises. Verchiel aids you in perfecting your ability to analyze without becoming judgmental, and to enter into service in an unselfish manner.

Verchiel also helps you to transcend the ordinary human expression of Virgo. You begin to analyze the fundamental duality of physical existence and to understand spiritual evolution more fully. Although you have keen insight and good skills in argument, you often eschew them in favor of appreciation of the ebb and flow of insight concerning meaningful service to others.

You also benefit from the guidance of the Angel Tzadqiel. Tzadqiel helps you to expand your awareness of possibilities

within every plan: physical, emotional, mental and spiritual. All of your study and focus eventually lead to the garnering of love and wisdom of a higher order.

### Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

#### *Uranus is Opposite Neptune*

With Uranus Opposition Neptune, you experience cooperation between Zadkiel and Tamiel through psychic means. Zadkiel is the Angel of Death, and Tamiel of Dreams. Together they extend your understanding of the nature of life and its limits. They also reveal the many ways you can change your life through skillful action.

You have a natural love of ritual. You find, when you think about it, that ritual pervades everything you do. You get along with other people very well because you observe the steps of ritual, entering into each conversation, activity, or association according to socially or culturally defined rules, and in so doing you put other people at ease without undo fuss or bother.

You can develop subconscious talents through conscious expression. In concert with your Angels, you express little pieces of your subconscious awareness in conversation or action. As you do this, you affirm your less conscious abilities and honor them and your Angels. Then your mind is better able to provide ideas and feelings to aid your work.

Inspired idealism may not be what you think you have been looking for, but you are certain to find it eventually. Your Angels send you dreams and ideas all the time, and you have only to pay attention to them. Your idealism provides a foundation for you to help others who experience major disasters or transformations in their lives. When you or others experience loss, your Angels are ready and willing to lift you up.

A potential weakness is the lack of stamina. Physical exercise to build lung capacity and muscle strength is well worth the effort. The physical strength you gain provides a foundation for emotional and spiritual strength.

For mental strength, meditation or yoga provide an organized practice. Kundalini yoga provides a medium for mental

focus as well as physical exercise, building all the structures you need to support your developing psychic awareness.

Another possible weakness of structure could lead to high blood pressure and its associated ailments. The above mentioned exercise, meditation, and yoga all serve to reduce blood pressure and strengthen the system so as to avoid dangers of stroke and heart ailments.

Heightened psychic states including clairvoyance are the norm for this combination.

### *Jupiter is Square Neptune*

With Jupiter Square Neptune, you experience a dynamic, challenging interaction between Zadkiel and Tamiel. When the Angel of Mercy and the Angel of Primordial Energy meet, you understand the depth of happiness that you can experience. You have had glimpses of this happiness in the past, and perhaps even extended periods when you felt blissful. Now you have a tool to make the interaction between these Angels a part of your daily life.

Through your meditation, you can cultivate a sincere love of humanity. Your Angels guide your thoughts toward compassion and integrate your feelings with the knowledge that you need to express compassion effectively in everyday life.

Naturally idealistic, now you can focus on your idealism and make some of those goals become reality for you and for others. As you listen to your Angels, you find that ideas come to you easily and naturally. Even when you don't know the mechanics for a particular action, you sense the right activity and then either learn how to do it, or find people who know.

You are impressionable. This can be seen as a weakness until you learn to manage the impressions you receive. Initially, when you have no filtering system, you receive impressions from everyone and everything. Part of developing the mind in childhood relates to developing structures and organization for feelings and sensations. Even as an adult, you continue to define and refine your mental structures. Eventually you realize that impressions from other people translate almost instantly into meaning for you.

Another possible weakness is a general lack of muscle tone. It's important for you to find an exercise program that works for you. It can be as simple as a walk every day, or as complex as a serious weight or strength training program. The idea is to aim for some exercise each day, and some activity that builds and maintains muscle strength.

Expand your interest in mysticism through study of one or more subject. Pursue connections between your religious beliefs and your mystical thoughts. Your Angels will fill in the blanks in what you read or study. Meditation allows your mind to sort through what you have taken in. Meditation also allows your Angels to speak directly to you and provide additional insights.

Wisdom comes to you through the association of Zadkiel and Tamiel. Your dreams provide a ready source of inspiration because they put the energies of your Angels into pictorial, auditory, and sensory form.

### *The Moon is Sextile Neptune*

With Moon Sextile Neptune, your life is enriched with opportunities presented by the Angels Gabriel and Tamiel. Gabriel is the Angel of the Annunciation, and Tamiel is the Angel of the Sea. Sometimes named Rahab, Tamiel is the Angel guardian of dreams. The immense transformational energy of Gabriel merges with Tamiel's primordial power in your personal life, enhancing the power of truth in your life.

With a strong association to Gabriel, your dreams are often prophetic in nature. You may have dreams that you cannot understand at the time. They are composed of familiar people and things, but the associations make little sense. Later, you discover yourself in a situation that recalls the dream precisely. Or sometimes you feel a sense of déjà vu, and you may then recall the previous dream.

You have the natural capacity to perceive the future through dreams. For this reason you may want to record your dreams and follow their meanings. Prophetic dreams have some definite qualities. First, they seem to be true dreams, even when you feel they are somehow absurd. They have an internal logic, similar to the plot of a story. They seem meaningful to you because of the people and places in them. Prophetic dreams have a compelling quality that allows you to remember details. They provoke a feeling of deep mystery and you may be able to communicate the sense of mystery to other people.

Your powers of clairvoyance - ability to feel other people's feelings - develop as you become more familiar with Gabriel and Tamiel. You always know something about how other people are feeling. Now you can work to develop your extrasensory ability to discern who is feeling what, and understand other people's feelings separate from your own.

You are somewhat open to negativity from other people. Gabriel and Tamiel work in concert to provide a way to buffer this energy so that you can notice it without taking it into yourself.

### *Saturn is Quintile Neptune*

With Saturn Quintile Neptune, your creative talents blossom when you attend to the messages of Kafziel and Tamiel. Kafziel is the Angel of memory, solitude, and tears. Together these Angels put you on the path of personal integrity as surely as you follow one thought with another.

Your slow growth of understanding could be seen as a weakness. However, your path is one of steady, almost certain forward progress. You analyze and consider each decision and each new idea. In this way every step is firm and solid, not tentative or half-hearted.

Intelligent activity becomes part of your nature. Intelligent activity involves the skillful use and application of knowledge, so you must first gain knowledge before you can apply it effectively. Kafziel and Tamiel work in concert in your life by first supplying the means to learn, and then aiding your mind through dreams or visualizations of how to use the information you have gained.

As you allow your Angels into your life, you gain the capacity to maintain hope in the face of seeming disaster. You discover that even in the most difficult circumstances, you have Angelic protection, and you can find a way to work your way out of the problem.

These Angels help you learn how to manage pain. When you or someone else experience severe physical or emotional pain, your Angels provide the means for relieving its severity, as well as providing the path to resolving it altogether.

Zadkiel and Tamiel provide dreams to help you through life's difficulties. You have tenacity of spirit, and your Angels support its use. Sometimes you will have a conscious idea, and you work step by step to make that dream a reality. Other times dreams provide very direct messages about your life. Either way, your mental strength is a special ally throughout your life.

*Neptune is Sextile The North Node*

With Neptune sextile the North Node, you experience the strange, even exotic opportunities through the close contact between Tamiel and the entire heavenly host. You are inclined to think that anything is possible when this aspect is active in your life, perhaps because so many Angelic energies contribute to your lively imagination.

A weakness is the lack of flexibility in dealings with other people, possibly due to your confusion about what they want or how you fit into their plans. Another possible problem concerns dreams that disturb your peaceful sleep.

If you have difficulty establishing good contacts with other people, call upon Tamiel and the heavenly hosts for comfort and support. They can stimulate imaginative ways of getting your ideas across to others.

On the up side, you can develop your psychic sensitivity so that you know what is coming in the next moment or the near future. This way you feel better prepared and can appear more adaptable, even if you still feel a bit foggy about the details.

With a host of Angels behind you to bolster your courage, you find that engaging with others in social activities becomes easier.

*Neptune is Square The Midheaven*

With Neptune forming a square to your Midheaven, psychic energies in your environment create challenges to your peace of mind and cause distress until you learn to read the messages in terms of yourself. By looking within yourself and opening your mind to angelic support, your Angels can help you to see the value of psychic awareness in terms of your own spiritual progress.

When the world showers you with glamour and other people try to convince you of realities that don't mesh with your own perceptions, your Angels can help you to express compassion for others, while also understanding your own motivations.

On the plus side, Tamiel supports your receptivity, empathy and sensitivity. Awareness of Mind is enhanced through Angelic associations, and your contemplative nature expands as you explore your own ego. This may sound odd, as many spiritual belief systems indicate that ego is to be avoided or quelled. However, if you go through ego issues instead of around them, you are better able to resolve them.

Tamiel also supports you by revealing your greatest mental and emotional weaknesses, so that you may resolve them. For example, you may be susceptible to deception, either from others or through yourself. Your Angels help you to perceive deception and to dispel it.

You have a powerful imagination that can be utilized in the search for self-awareness and spiritual consciousness, and your Angels are there to help you.
